Dear Jim;

I can't tell you how pleased we've been with the marketing video you produced for our company. Our sales and business growth have been unprecedented. Of course, we know that it is the integrity and uniqueness of our product that ultimately closes deals, but the video has been an integral part of getting our potential customers' attention and explaining our process in a creative and effective way.

If any of your potential customers need a recommendation, I will be happy to provide that for you.

Best regards,

Jim Rolfe
